1. Sign Up

Seller can navigate to the sign up module by clicking on the 'Become a seller' button from the footer navigation links. Sellers can also sign up through the buyer dashboard if they have already registered as a buyer on the platform. This option is only available if admin has enabled 'buyers can see seller tab'.

On the seller sign up page, seller will have to input a unique email address and name of the seller.

1) Details Tab

Seller will navigate to the 'Seller Registration' page where seller needs to input/edit the following fields:

- Name: Seller can edit their name.
- Username: Seller will input unique preferred username.
- Email: Seller can edit their email address.
- Password: Seller will input preferred password.
- Confirm Password: Seller will input the password entered in the previous field.
- Terms & Conditions checkbox: Seller needs to check the checkbox to accept to the portals terms and conditions.
- Newsletter checkbox: Seller needs to check this checkbox if they wish to receive updates and newsletter from the portal.

Upon clicking the 'Register' button, seller will be navigated to the Activation tab. Please refer the screenshot below:

3) Confirmation Tab

The confirmation tab will display a confirmation message of successful registration. Clicking the 'Login' button will navigate the seller to the sign in page.

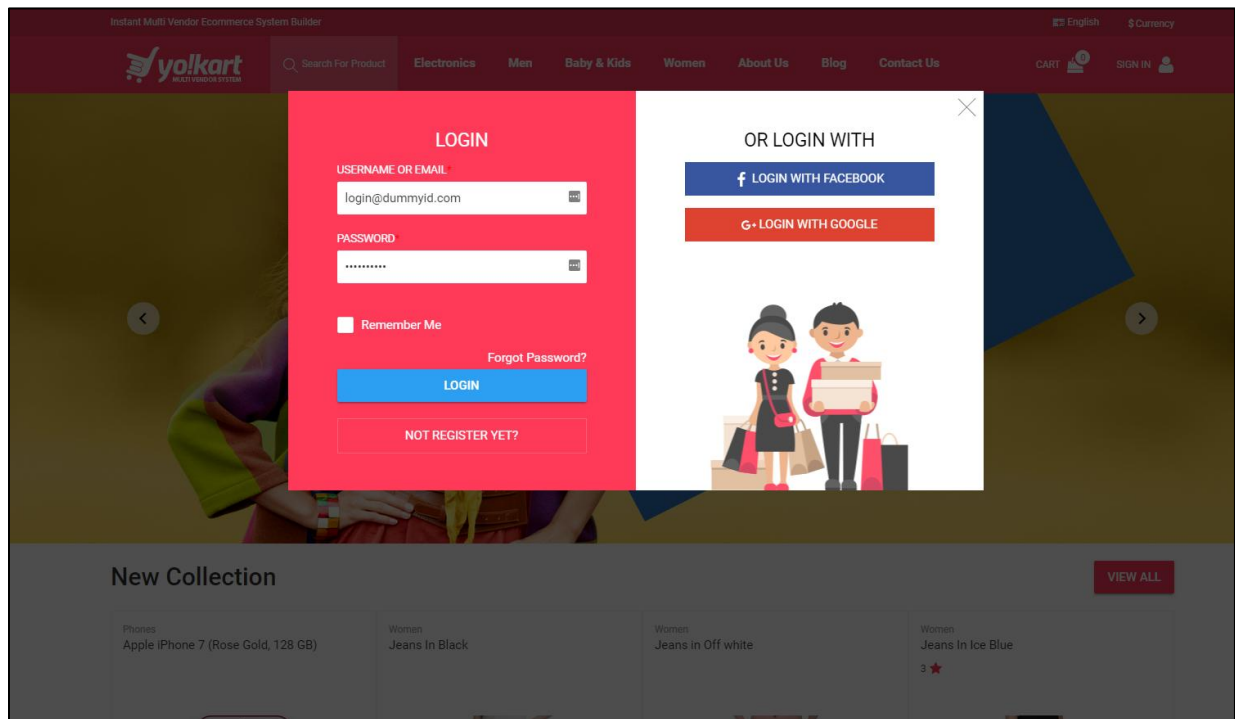

Before Login to the system, seller needs to verify his/her email address. Seller will receive a verification link to the registered email address.

2. Sign In

Seller can navigate to the sign in pop-up from the very top of the homepage by clicking on the 'Sign In' button.

Seller will have to input registered email address or username during the sign up process along with their password.

Clicking on the 'Login' button will verify the entered credentials and redirect the seller to the homepage/dashboard page.

3. Forgot Password

Seller can access the 'Forgot Password' section in case the seller does not remember their password or wants to reset the password.

Clicking on the 'Forgot Password' button from the Sign-In pop up, navigates the seller to the 'Forgot password' page.

The screenshot shows a login interface with a red sidebar on the left and a white main area on the right. The sidebar contains the 'LOGIN' section with fields for 'USERNAME OR EMAIL' (containing 'login@dummyid.com') and 'PASSWORD' (masked with dots). Below these fields are a 'Remember Me' checkbox, a 'Forgot Password?' link, a blue 'LOGIN' button, and a 'NOT REGISTER YET?' button. The right side of the page has a section titled 'OR LOGIN WITH' with buttons for 'LOGIN WITH FACEBOOK' and 'LOGIN WITH GOOGLE'. Below these buttons is an illustration of a man and a woman with shopping bags.

Seller will need to enter their registered username or email and complete the Captcha security to click the 'Submit' button.

The screenshot shows the 'Forgot Password?' page. It has a title 'Forgot Password?' and a subtitle 'Enter The E-mail Address Associated With Your Account. Click Submit To Have Password Reset Link E-mailed To You.' Below this is a text input field for 'Username Or Email'. There is a checkbox labeled 'I'm not a robot' next to a CAPTCHA image. A red 'SUBMIT' button is at the bottom left. A link 'Back To Login' with the text 'CLICK HERE' is also present. On the right side, there are three sections: 'Manage your orders' (with a truck icon), 'Make Informed Decisions' (with a bell icon), and 'Engage Socially' (with a thumbs up icon).

A password reset email is sent by the system to the registered email address. Seller will have to click on the link shared within the email. Seller will be redirected to the 'Reset Password' page.

Seller will need to enter the 'New Password' and 'Confirm New Password' fields before clicking the 'Reset Password' button.

Reset Password

To reset your password enter a new password below

New Password

e.g. User@123

Confirm New Password

RESET PASSWORD

 **Manage your orders**
Easily track orders, Create returns.

 **Make Informed Decisions**
Get Relevant alerts and recommendations

 **Engage Socially**
With wishlists, Reviews, Ratings

| System will display a success message and seller will be redirected to the 'Sign-In' page.
Seller will need to login with the new password.

4. Dashboard

After successful login, Seller can click on the user icon  from the homepage to access profile actions such as

- Dashboard – will navigate the seller to the 'Dashboard' page.
- My Sales – will navigate the seller to the 'Sales' page in the Dashboard.
- My Account – will navigate the seller to the 'My Account' page in the Dashboard.
- My Messages – will navigate the seller to the 'Messages' page in the Dashboard.
- My Credits – will navigate the seller to the 'My Credits' page in the Dashboard.
- Logout - - will log the seller out of the system

A) In this section, seller can view statistics for the following:

- Total Sales – Total sales amount of orders that have reached complete status.
- Total Credits - Total credits which include credits received from completed orders only.
- Total Orders – Total orders that are in completed status.
- Total Sold Items – Total items sold which have order status as completed.
- Total Messages

The statistics sections link to their respective details page for each.

B) A sales graph can be viewed on the dashboard which shows half yearly sales trend of seller. Just below the sales graph section the seller can also view a list of latest orders (most recent first) placed by customers.

- C) To seller has navigation shortcuts placed in the action column. The eye icon '  ' will navigate the seller to the order detail page. While the cross icon '  ' will navigate the seller to the cancel order page. The 'View All' link will navigate the seller to the 'Sales' tab.
- D) Two shortcut links are provided above the statistics section of the dashboard:
- **My Sales:** This link will redirect the seller to 'My Sales'" page where the seller can view a list of total orders placed.
 - **My Products:** This link will redirect the seller to the 'My Inventory' page that lists products that are available within the seller's store.

5. Manage Shop

From this Shop Details page, Seller can view and manage the details of their shop. In order to add a product, shop of the seller must be created first. Please refer to the below tabs for information that needs to be filled by the Seller on the Shop Setup page:

1) General Tab

Seller can input relevant shop details that would be displayed to the buyer/customer on the frontend. This section also allows for seller to edit/update key information.

- Identifier: This field requires the seller to input their Shop name.
- Shop SEO Friendly URL: This field helps with editing the shop URL for SEO purposes.
- Postal Code: This field requires the seller to input the postal code for the shop.
- Phone: This field requires the seller to input the Phone number for the shop.
- Country: Seller needs to select the country in which the shop is located.
- State: Seller needs to select the state in which the shop is located.
- Display Status: Seller can turn OFF or ON the display status of the shop at the front end. This functionality should help the seller during initial shop set up or making bulk updates.
- Free Shipping on: Seller can set the amount value of the cart for an order to be eligible for free shipping. Leaving this field blank or entering 0 will not entitle the buyer for any free shipping from this seller.

Note: Sellers can set free shipping on each product while adding product to their stores.

6. View Shop

Seller can use this link to view their shop as a buyer would see it. This would reflect the changes made in the Manage Shop section. Please refer the screenshot below:

7. Products

Yo!Kart V8 is a catalog based system, this means that there is a catalog of products that the admin has predefined in the system. A seller can use these predefined products and add them to their shop. Default view for the products tab, which is 'Marketplace Products', displays all the catalog products available in the system along with any seller defined custom products. A seller can create new custom products by clicking on the 'Add New Catalog' button only if the admin of the site has chosen to grant permissions to a seller to add custom products.

The 'add to store' button will allow the seller to select the particular catalog product, add inventory details and display the product within their shop.

7.1. Marketplace Products

Default view of this tab displays products available for the seller to add to his shop. The products list contains products the seller has added himself and products added by the admin. Please note that a seller will not be able to view products of another seller.

Seller can only edit and delete products that are created by the seller themselves. For all products added by the Admin, seller has viewing rights only.

The screenshot shows the 'Marketplace Products' page in the Seller Dashboard. The left sidebar contains navigation links for Seller Dashboard, Quick Filters, Shop, Sales, and Settings. The main content area has tabs for Marketplace Products, My Inventory, and Send Products Request. Below the tabs is a search bar and filters for Product and Product Type. A table lists three products with columns for Sr., Product, Model, Status, Admin Approval, Shipped By Me, and Action. Each product has an 'ADD TO STORE' button and an eye icon.

| Sr. | Product | Model | Status | Admin Approval | Shipped By Me | Action |
|-----|---|-------|--------|----------------|-------------------------------------|----------------------------------|
| 11 | Woodland Leather Boots (Woodland Leather Boots) | AD12 | Active | Approved | <input checked="" type="checkbox"/> | ADD TO STORE |
| 12 | Nike REVOLUTION 3 Running Shoes (Black) (Nike REVOLUTION 3) | AS12 | Active | Approved | N/a | ADD TO STORE |
| 13 | Men's T-Shirt (Men's T-Shirt) | GC124 | Active | Approved | N/a | ADD TO STORE |

Following Action options can be found for products based on who has added the product-

1. Search Products

Seller can search for a product using keywords/ean/isbn/ups code. Additional search filters can be applied based on Product Type, Marketplace products and Private products.

2. Shipped by Me toggle

Shipped By Me

Turning on the 'Shipped by me' toggle will also give access to the 'Edit Shipping' icon. This will let the seller define their shipping rates for the product.

3. Add to store

[ADD TO STORE](#)

Add to store button navigates the seller to 'My inventory>Inventory setup' tab where seller can add/update various product details.

General Tab - Basic

Add to store button will save the new product and navigate the seller to 'My inventory>Inventory setup' tab where seller can add/update various product details.

Volume Discount

Seller can provide bulk purchase discounts from '**Volume Discounts**' tab. To sell a product at a discounted price seller needs to input quantity of product to be purchased and discount percentage offered on bulk purchase.

The screenshot shows a 'Volume Discount' modal window. It has two input fields: 'Minimum Quantity*' and 'Discount In (%)'. Below these fields are 'SAVE CHANGES' and 'CANCEL' buttons. In the background, the 'Product Setup' page for 'Lee Jeans For Mens' is visible, showing a table with one row of discount data.

| Sr. | Minimum Quantity | Discount (%) | Action |
|-----|------------------|--------------|-------------------------------------|
| 1 | 3 | 20.00 | ✎ ✕ |

Links

Seller can create Product Add-ons and Related Products under '**Links**' tab. Only products available in the seller shop will be shown in the dropdown list. These linked products will show on product detail page.

The screenshot shows the 'Links' tab in the 'Inventory Setup' section. It has two input fields: 'Buy Together Products' and 'Related Products'. Below these fields is a 'SAVE CHANGES' button. The 'Product Listing' section is visible in the background.

Downloads

The download tab will be visible in case of digital products only. There are two options to add files for digital products:

- **Digital Download File** – Seller can upload a file and that will be stored on the server.
- **Digital Download Link** – Seller can add a link to download the file such as Drop box, Google drive etc.

4. Product Info

'Product Info' button displays a pop up with product information.

5. Edit

'Edit' button is only displayed on products owned/added by the seller themselves. Seller is navigated to the 'Custom Catalog Product Setup' page where the seller(s) can add/edit/update product details.

6. Product Images

'Product images' button is only displayed on products owned/added by the seller themselves. Seller can select the desired option for the product, language and upload product image.

7. Edit Shipping

'Edit Shipping' button is only displayed for products that are shipped by the seller himself. Clicking on the button navigates the seller to the shipping form with the following values.

- Shipping Country: Input/select country from where the product will be shipped from.
- Free Shipping (Checkbox): Check this box if free shipping is applicable for the product.
- Ships To: Input/select country the product is being shipped to.
- Shipping Company: Input/select shipping vendors available.
- Processing Time: Input/select shipping labels/services available.
- Cost: Input cost of shipping product.
- Each Additional Item: Input cost of shipping additional item of the same product.

Seller can define multiple shipping methods for the product.

Add New Catalog

The 'add new catalog' button lets the seller add a custom product that is not available within the catalog defined by the admin. This option is only visible if admin has allowed sellers to add their custom products.

Upon clicking the button seller is navigated to the 'Custom Catalog Product Setup' page where the seller will have to select the product category and sub categories associated with the product.

Upon selecting the category, seller is navigated to 'Add my product' section where product details can be defined.

1. General Tab – Basic

Following fields need to be defined within the system

- Product Identifier: Unique name of the product to be used for the system's internal purpose.
- Product Type: Select from physical or digital
- Model: Input model for the product
- Brand/Manufacturer: Select/input brand for the product
- Brand Not Found? Select Other And Request For Brand: Seller can make a request with the admin of the portal to add a brand that is not listed. Seller can use this brand only once admin has approved the same.
- Product Featured: Check if product should be added to the featured collection.
- Minimum selling price: Input the minimum selling price for the product
- Tax Category: Select tax category applicable on the product.
- Length: Input length of the product
- Width: Input width of the product
- Height: Input height of the product
- Dimension Unit: Select unit for dimensions of the product
- Weight: Input weight for the product
- Weight Unit: Select unit for weight of the product
- Product Status: Select between active or in-active options to show
- Available for COD: Select option if product is available for 'Cash on Delivery'.
- Shipped by me: Select if shipping is done by the seller.
- EAN/UPC code: Input EAN/UPC code for the product. Buyer can search the products using this code from front end.
- Shipping info/charges
 - Shipping Country: Inputs country from where the product will be shipped from.

- Free Shipping (Checkbox): Check this box if free shipping is applicable for the product.
- Ships To: Input/select country the product is being shipped to.
- Shipping Company: Input/select shipping vendors available.
- Processing Time: Input/select shipping labels/services available.
- Cost: Input cost of shipping product.
- Each Additional Item: Input cost of shipping additional item of the same product.

Seller can define multiple shipping methods for the product.

Following Action options can be found for products based on who has added the product-

1. Status

Seller can turn off/on the status of a product, which means if for a product the status is selected as off then it would not show in the sellers shop.

2. Edit

The edit button navigates the seller to 'My inventory>Inventory setup' tab where seller can add/update various product details.

3. Delete

The delete button will delete a product from the Seller shop.

4. Clone

The clone button is only available for duplicating the inventory item for products added by the seller themselves. The clone button will allow the seller to make a copy of a product but with a different option.

7.3. Send Product Request

This page will display all the product requests made by the seller to the admin. Clicking on 'request new product' will navigate the seller to 'Add my product' section where product details can be defined. This requested product has to be approved by the admin first before the seller can add the product to their shop. Approved products will be available to all sellers.

Language* English

SUBMIT

Please note that 'Export Catalogs' & 'Export Seller Products' have additional options to select. For both these options other than the language preference, the seller would need to select the kind of data they would like to export along with the data range.

Following options are available for data range.

- **Does Not Matter:** This option will export the complete data for the selected 'kind of data'.

- **By ID Range:** By selecting this option the system will export data by the range defined in the 'Start ID' & 'End ID' fields. ID's are system assigned to the products in the system. Please refer the screenshot below:

The screenshot shows the 'Import Export' interface. Under the 'Export' tab, the 'Content' sub-tab is active. The 'Export Data Range' dropdown is set to 'By Id Range'. The 'Start Id' field contains the value '1' and the 'End Id' field contains the value '1000'. A red 'SUBMIT' button is located at the bottom of the form.

- **By Batches:** By selecting this option the system will export data in batches of the number mentioned in the 'Counts per batch' field. 'Batch Number' will define within the system if the 1st hundred needs to be exported or the 2nd hundred needs to be exported. Products are ordered by ID & active/inactive in the CSV exported. Please refer the screenshot below:

The screenshot shows the 'Import Export' interface. Under the 'Export' tab, the 'Content' sub-tab is active. The 'Export Data Range' dropdown is set to 'By Batches'. The 'Counts Per Batch' field contains the value '100' and the 'Batch Number' field contains the value '1'. A red 'SUBMIT' button is located at the bottom of the form.

9.2. Import Tab

Sellers can use this option to import data into the system. Seller would first need to select one of the options available between 'Content' or 'Media' and then select the language preference of the file before, Data option and attach the file before clicking on submit to import the file. Please note that it is always recommended to first export the file the seller wants to import. The seller is recommended to make changes to the exported file and then import the edited file itself. This will ensure to keep the system ID & identifier data intact.

10. Sales

The sales tab shows the seller a list of orders placed by buyers which have the following statuses:

- Payment Confirmed
- In Process
- Shipped
- Delivered
- Return Requested
- Completed
- Cancelled
- Refunded/Completed

Note: Admin can also manage the order statuses along with the seller.

| My Sales | | | | | |

| 01500974674-S0002 25/07/2017 | Xbox One Xbox One Brand: Xbox | 2 | \$1,050.00 | Payment Pending | |

The seller can filter the orders by using one or multiple search filters:

- Keyword
- Status
- Date From and Date To
- Order From (\$) and Order To (\$)

Clicking on the  icon by the seller will cancel the order placed by buyer. Seller will be redirected to the details page where the seller can mention reasons/details for cancelling the order.

Clicking on the  icon or Order ID, the seller will be redirected to the view details page of the order. Seller can view following details on the view details page of the order:

- Buyer/Customer details (Name)
- Status of the order
- Cart Total
- Delivery charges
- Tax
- Order's Total
- Date
- Invoice No.
- Product's details
- Shipping and Billing Address
- List of comments added by buyer while updating the status of the order.
- Link "Print" to get print out of the order

Within the order details page, seller can print the order details and change the status of the order.

The bottom section contains the order comments which are cumulative of all the comments made by the Admin, Seller and Buyer.

Note: Once the order is marked complete by the Admin only then the order earnings are updated in the Seller wallet.

11. Cancellation Requests

On this tab the seller can view a list of requests sent by buyers for cancellation of order(s) placed.

Seller can search any order by using following filters:

- Order Id/Invoice No.
- Date From and Date To
- Status (Pending, Approved and Declined)

Note: Only admin can approve/decline the cancellation request. Seller can only view it. If a cancellation request is in 'pending' state then order status cannot be changed by the seller.

12. Order Return Requests

On this tab the seller can view a list of orders for which buyers have initiated a request for return.

Clicking on the  icon will navigate the seller to the order refund request page.

- The seller can view and reply to the buyers message of refund.
- The seller can approve the refund.
- The seller can escalate the issue to the admin of the portal.

14. Options

Options are variations of a product maybe in color, size etc. In this section seller can add options for products he has defined to sell in his shop.

Seller Options

Manage Seller Options

ADD OPTION

Search

| Sr. No. | Option Name | Action |
|---------|------------------------------|--|
| 1 | Barrel Type (Barrel Type) |   |
| 2 | Color (Color) |   |

Clicking the add option button, a pop up is displayed where seller can define a new option for the product. Seller will first define an option category. Following options are available while defining an option category

- 1) Option identifier – Unique input field to set option category
- 2) Option name (Languages) – Name of the option in different languages
- 3) Option has separate image – Yes/No dropdown to indicate if different image is available for an option category. Used while defining color options.
- 4) Option is color - Yes/No dropdown to indicate if option category is a color.

15. My Subscriptions

This section is only visible on the dashboard if the Admin of the portal has enabled subscription packages.

Seller can see past and present subscribed subscription packages on this page.

Seller can also turn on & off the auto renew subscription functionality through the toggle button located on the top right corner. When turned on, this will automatically renew the seller's subscription plan with the website. Subscription packages auto renew only if the seller has enough credits in their wallet. If there aren't sufficient credits in the wallet then the subscription plan will not be renewed and the seller shop and products will be hidden on the website, post expiry of the subscription package.

Search filters are present for the seller to locate a particular subscription order. Clicking on a particular subscription order number or the  icon will navigate the seller to the order details page.

Clicking on the 'Renew Subscription' /  icon will renew the same subscription package for the seller.

16. Subscription Packages

On clicking the subscription packages option from the left navigation menu, the seller is navigated to the packages page. Here the seller can view various subscription packages available from the business/admin. Clicking on the 'Buy plan' will enable the seller to select and pay (if required) the desired subscription package they want to enroll for. Seller will be then navigated to the payment gateway page where the seller can pay the requested amount and activate the subscription.

Once a package is subscribed then seller can only view renewal plans which can be selected in a similar way as defined above.

17. My Account

Seller can manage account information such as profile details and bank account information under this section.

Seller can edit profile details such as:

- Customer Name
- Phone
- Country
- State
- City
- Company
- Brief Profile
- What Kind Products Services Advertise

Sellers cannot edit Username, Email & Date of Birth as it is unique within the database records.

Seller can also upload or remove the profile image from this section and also have the feature to select default dashboard (Buyer or Seller) which would be displayed after login. Note: Seller dashboard can only be selected if admin has allowed sellers a buyer role as well.
